Unlimited selection

CUBICLE COLLECTION

CUBICLE COLLECTION

Abet Limited's High Pressure Laminate and Compact Grade Laminate are hardwearing, durable and very attractive solutions for most cubicle, partition and locker applications with excellent resistance to impact, scratches and abrasion.

- Standard sheet size – 3660 x 1610mm, 4200 x 1860mm and 4200 x 1610mm (Gloss decors only)
- Available to special order – 4200 x 1860mm

COMPACT GRADE LAMINATE – 12mm

CGS:

Compact Grade Standard:
Compact grade laminate for use as flat self-supporting panels for horizontal/vertical applications

- Compact Grade Laminate is Class 0 fire rated and ideal for use in areas of high moisture and humidity as its solid core construction means there is no risk of peeling, cracking or delamination.
- Particularly recommended for use on cubicles, washrooms and lockers in high traffic areas (such as in schools, hospitals and airports) and in places of high humidity (such as leisure centres and swimming pool changing rooms).
- Its non-porous fabrication and edging make it ideally suited for use in sterile and hygienic environments including hospitals, laboratories and food preparation areas.

Overlay impregnated with melamine resin to provide a tough, durable and resistant surface

Decor paper impregnated with melamine resin forms the decorative layer and provides surface durability

Black core made up from layers of kraft paper impregnated with phenolic thermosetting resins to give inner strength and durability

HIGH PRESSURE LAMINATE – 0.8mm

HGP:

Horizontal Grade Postforming:
Sheet laminate for bonding onto flat or postformed surfaces for horizontal applications

VGP:

Vertical Grade Postforming:
Sheet laminate for bonding onto flat or postformed surfaces for vertical applications only

- High Pressure Laminate 0.8mm postforming grade is Class 0 Fire rated (when bonded with other FR materials).
- It is a competitive durable and hardwearing solution which can be postformed as required.
- Particularly recommended for use on vanity units and IPS panels.

Overlay impregnated with melamine resin to provide a tough, durable and resistant surface

Decor paper impregnated with melamine resin forms the decorative layer and provides surface durability

Layers of kraft paper impregnated with phenolic thermosetting resins to give inner strength and durability

GENERAL INFORMATION

The Cubicle Collection is manufactured in the most modern and largest HPL factory in Europe and conforms to all the requirements of BS EN438:2. The sheets offer a hardwearing, impact resistant and very attractive decorative surface.

The range is available in a selection of plain colours with complementary speckle effects, Woodgrains and Minimi/Gloss finishes. The HPL has been specially selected for areas of heavy usage or vandalism.

It is particularly recommended for use in schools, leisure centres, swimming pools and high traffic public areas, such as airports, stations and places of entertainment. Other recommended uses include hospitals, laboratories and food preparation areas where wood cores and joints are unacceptable for health reasons.

The compact grade HPL is a durable, versatile and economic product resistant to vandalism, impact and water. Its decorative surface with an easy-to-clean texture is enhanced by the solid black core offered as a standard feature of this Collection. Its 12mm thickness ensures that the HPL can be used in conjunction with the majority of available fittings and fixing systems.

Abet Limited also offers a complementary Locker Collection in 10mm thickness compact grade as well as a dedicated Door Collection in 0.9mm allowing for complete washroom and cubicle specification.

CLEANING AND MAINTENANCE

The Cubicle Collection will give years of excellent service provided a few simple rules are followed. Light dirt or stains can be removed easily with warm water and mild detergent. Stubborn marks should be removed using a non-abrasive cream cleaner or mild domestic bleach. Harsh abrasives or scouring powders should be avoided. Grease marks can be removed with a proprietary paint and graffiti remover. Hair dyes, bleaches, caustic alkalis and strong mineral acids should be wiped off within a short period.

We strongly recommend that all Abet Laminati HPL products are stored, conditioned and fabricated in accordance with our own and BLFA guidelines. More detailed technical information brochures are available from our office and/or your local distributor.

STYLISH AND PRACTICAL

Abet Ltd is the UK & Ireland branch of Abet Laminati, Europe's largest manufacturer of high pressure laminates based in Bra in Northern Italy. The company is renowned for its design flair and has strong links with the best Italian and International designers.

With offices and warehouse in London's Docklands, Abet Ltd can provide advice on the use of laminates for every application be it the conventional, the unusual, the high performance or the purely decorative. Our products are supplied through a network of UK & Ireland distributors.

Whatever your project, you will find the solution within our Unlimited selection!
